Bali Travel

Though the traveller road for Bali travel is well worn in, there's a bit of travel guidance for Bali you should know before going so as to get the maximum out of your vacation.

Bali is one of the most sought after island holiday spots in the world. Nestled among the scattered islands of Indonesia, Bali is home to both towering rugged mountains and pristine beaches. Whether you are a frugal backpacker or a well off CEO, Bali has such a well-established tourism industry that you're bound to find your niche.

If culture is your aim, this little island won't displease. Called the Island of the Gods, Bali travel is soaked in a rich culture and there are many historical and cultural places to visit. Nonetheless if you're just doing some Bali travel to chill out in as close as you can get to paradise, then you are headed for the right spot.

When you are doing your Bali travel, you will be certain to relax and let everything go a little . A little piece of travel information for Bali : take care to exercise caution with your things and with what you choose to drink and eat. Theft and corruption is common, and so you ought to be aware about the exchange rates and keep a tight watch on all of your possessions. It's good travel information for Bali (and most other places) that it's a smart idea to wear your backpack, handbag or sack in front of your body, resting on your navel when walking through the streets.

Another vital piece of travel information for Bali is if you intend to use taxis, be very pushy about where you wish to go and negotiate a rough price before getting into the car as many taxi drivers have deals with certain hotels and shopping centres and can earn a commission by taking travellers there.

The water quality in Bali isn't the worst in the world, but it might be stupid to drink it. Bring a [portable water filter](#) with you so that you can refill from the taps, save cash and avoid growing sick. Bali has issues with pollution, so so as to do Bali travel sustainably and responsibly, don't buy bottled water while you're there.

As you would in any foreign country, be mistrusting of uncooked plants which could've been washed in grimy water and avoid drinking anything with ice cubes.

Recently, Bali has not always been the securest place to travel. Naturally, there had been the infamous Bali bombings of 2002, just one year after the 9 / eleven attack in the U. S. . In more recent years, there were 1 or 2 terrorist threats in Bali and surrounding islands.

It's a smart idea to check your government's current travel guidance for Bali for up-to-date info on Bali travel. If your government's current travel advice for Bali recommends not travelling, it can affect your capability to claim insurance if you decide to go right ahead with your Bali travel plans. Nonetheless for the main part the Balinese are relaxed people and unless something is going really very wrong you'll be comparatively safe.
